

Brussels World Strike

Brussels taxi drivers invite their colleagues from all over the world to join them on September 8, 2022 in Brussels (Gare du Nord), for a global demonstration.

We, the taxi drivers of Europe - a public service - demand that the UBER FILES scandal be brought to light! The former competition commissioner and vice president of the European Commission are strongly implicated.

Investigations by the International Consortium of Investigative Journalists (ICIJ) reveal that in every EU member state it is highly likely that serious infringements of competition rules have been committed by a former high-ranking official who, today, works for the American company Uber.

Investigations by the International Consortium of Investigative Journalists (ICIJ) reveal that in every EU member state it is highly likely that serious infringements of competition rules have been breached.

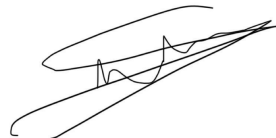

For all these reasons, taxi drivers in Europe and the rest of the world ask for an investigation at both European level and in the Member States; and if any wrongdoing has occurred, that strong sanctions and compensation measures be taken.
